You are flying in an airplane with the wind blowing sharply in your face. You are flying from Chicago to Nashville. In what direction are you flying?

If you said south, you are correct!

Write the direction you would be traveling for each set of cities. Use the four cardinal directions - north, south, east, and west.

- Atlanta to Los Angeles _____
- Seattle to Los Angeles _____
- San Francisco to Nashville _____
- Denver to Salt Lake City _____
- Cincinnati to Detroit _____
- Houston to Minneapolis _____
- Miami to New York _____
- Detroit to New York _____

Northeast Region by Kathleen Hamilton

States

The Northeast Region is made up of the states of Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania. The states are mostly small, and many people in the Northeast live in urban areas, or big cities. Some of the big cities in the Northeast Region are Boston, New York, Philadelphia, and Pittsburgh. Several of the Northeastern states were part of the original thirteen colonies - the areas where the first white settlers lived in North America. If you visited the Northeast Region, you would hear many town names that come from countries where the first white settlers came from - England, France, and the Netherlands.

Landforms

The Northeast Region is bordered to the east by the Atlantic Ocean. Canada is its neighbor to the north and the west. The Southeast Region borders the Northeast to the south. These states are mostly low and flat, especially close to the ocean. There are also areas of mountains farther inland. Inland means away from the ocean. The Appalachian Mountains are found from Maine all the way south to Georgia. Areas in the mountains are full of thick forests and quiet lakes. Two of the five Great Lakes are found bordering the Northeast Region - Lake Erie and Lake Ontario.

Points of Interest

The Northeast is home to 22 professional football, baseball, basketball, and hockey teams, including the New England Patriots, the Pittsburgh Pirates, the Brooklyn Nets, and the New York Rangers. There are many places to visit that help people learn about the history of the United States, like the Liberty Bell in Philadelphia and Plymouth Rock in Massachusetts. Big cities offer visitors exciting museums, theaters, and different kinds of restaurants. Central Park in New York is the most famous urban park in the United States. It has lakes, art exhibits, restaurants, a zoo, and a carousel.

Name: _____ Num. _____ Date: _____

1-9. Label the states of the Northeast Region on the map. If the state is too small to write the whole name, write it outside and draw an arrow to show the correct state. Make sure to pay close attention to spelling and capitalization.

Name the borders of the Northeast Region in each direction.

10. north _____

11. south _____

12. east _____

13. west _____

14. How many professional sports teams would you find in Northeast Region?

15. In what city is Central Park located?

16. What mountain range is located in the Northeast?

Southeast Region by Kathleen Hamilton

States

The Southeastern United States is made up of the states of Maryland, Delaware, West Virginia, Virginia, North Carolina, South Carolina, Kentucky, Tennessee, Georgia, Florida, Alabama, Mississippi, Louisiana, and Arkansas. Our nation's capital, Washington D.C. is found between the states of Virginia and Maryland. Washington, D.C. is not a state, though. It is just a city that does not belong to one state alone. It is the capital of all the United States! Other major cities in the Southeast Region are Atlanta, Baltimore, Jacksonville, Memphis, Charlotte, Louisville, and Richmond.

Landforms

The Southeast is bordered on the east by the Atlantic Ocean and to the south by the Gulf of Mexico. The western border of the Southeastern Region is the Southwest Region. North of the Southeast Region is not a body of water. It is more states - the Midwestern Region.

The Southeast Region has beaches and marshes where the land touches the ocean and the gulf. There are also mountains - the southern part of the Appalachian Mountains. The Smoky Mountains in Tennessee and the Blue Ridge Mountains in North Carolina, Virginia and West Virginia are parts of the Appalachian Mountains. The Southeast Region has a strong farming history. The cities are very spread apart, with rural farm land in between. The mighty Mississippi River flows down to the Gulf of Mexico along the eastern borders of Arkansas and Louisiana.

Points of Interest

The Atlantic and Gulf Coasts are known for their sparkling beaches. The historical attractions are mostly related to the Civil War. In the late winter areas around New Orleans celebrate Carnival season with parades and parties. Disney World, one of the most popular places to visit in the whole United States, is located in Orlando, Florida. The Georgia Aquarium in Atlanta is the largest aquarium in the world. Colonial Williamsburg is a real town that shows visitors what life was like in the 1700s. The largest cave system in the world is Mammoth Cave in Kentucky. The cities of Nashville and Memphis are known for their music history and traditions.

Complete.

14. $9 \times 7 = \underline{\hspace{1cm}} + 33$

15. $7 \times \underline{\hspace{1cm}} = 34 - 13$

16. $\underline{\hspace{1cm}} \times 7 = 7 + 7$

Mixed Review

Write the value of the underlined digit.

17. $5\underline{3},009$ _____

18. $6,8\underline{4}2$ _____

19. $\underline{9}2,106$ _____

20. $4,\underline{2}22$ _____

21. $1\underline{1},001$ _____

22. $6,6\underline{8}1$ _____

Round to the nearest hundred.

23. $5,349$ _____

24. 478 _____

25. $14,780$ _____

26. $26,318$ _____

27. $1,159$ _____

28. 879 _____

Subtract 475 from each number.
